8. EXPLORATION AND EVALUATION ASSETS (continued)

The Corporation holds (together with its subsidiaries) 95 exploration and evaluation properties located in: (i) the Abitibi Greenstone Belt; (ii) the James Bay, Mistassini and Otish regions of northern Quebec; (iii) the Nunavik (Ungava and Labrador) region of northern Quebec; (iv) the Athabasca Basin of Saskatchewan, and (v) James Bay Lowlands of Ontario.

Abitibi Greenstone Belt Properties – Integra Gold Corp. (formerly Kalahari Resources Inc.) – Québec and Ontario

On February 21, 2005, the Corporation was granted an option by Integra to acquire up to a 85% interest in nine mineral properties provided that, amongst other things, it incur an aggregate \$1,000,000 in exploration expenditures on any one of or a combination of the nine properties (\$500,000 for 70%, completed). The Corporation provided Integra with notice of its intent to vest as to a 70% interest in the properties and, a joint venture agreement was concluded as at December 8, 2008 (the “GZZ-I JV”). The GZZ-I JV is subject to underlying royalties ranging between 3% and 3½% in favour of the original vendors, one of which is a director and an officer of the Corporation.

Sirios Resources Ltd. - Sharks and Cheechoo Joint Venture - James Bay Northern Quebec

Pursuant to an agreement dated October 23, 2013, Golden Valley granted Sirios Resources Ltd. (“Sirios”) an option to acquire Golden Valley’s remaining 55% interest in the Cheechoo prospect. Also on October 23, 2013, Sirios abandoned the claims comprising the Cheechoo B East and Sharks property claims resulting in Golden Valley Mines retaining a 100% interest in the Cheechoo B East and Sharks Prospects. The option was conditional on certain obligations being fulfilled by Sirios. On May 11, 2016, Sirios provided notice to Golden Valley that it had completed all its obligations under the agreement to earn a 100% interest in the Cheechoo prospect, including the issuance of 1,250,000 common shares to the Company at a deemed price of \$0.40 per share for a total value of \$500,000. As a result, Sirios now holds 100% of the Cheechoo prospect, subject to the royalty described below. The Company recorded a loss of \$1,106,927 as a result of the transfer to Sirios of its remaining 55% interest in the Cheechoo prospect.

As additional consideration for the grant of the option, Sirios granted to Golden Valley Mines a royalty (the “Royalty”) equal to 4% of the net returns from all mineral products mined or removed from the Cheechoo gold project. Notwithstanding the foregoing, the royalty relevant to gold mineral products mined or removed from the Cheechoo gold prospect may vary between 2.5% and 3.5% depending on the market price of gold at the time of the payment. The parties are currently finalizing a royalty agreement that reflects the grant of the Royalty. For accounting purposes, no value has been assigned to the Royalty, as the project is still at an early stage of exploration and future cash flow cannot be reliably estimated.

GZZ Properties - Golden Cariboo Resources Ltd. – Abitibi Greenstone Belt, Quebec and Ontario

On January 11, 2012, the Corporation granted an option to Golden Cariboo Resources Ltd. (“GCC”) to acquire a 70% interest in certain properties held as to a 100% interest by the Corporation and located in the Abitibi Greenstone Belt of northwestern Quebec and northeastern Ontario. Concurrently, the Corporation and Integra granted an option to GCC to acquire a 70% interest in certain properties located in the Abitibi Greenstone Belt of northwestern Quebec. In order to maintain in force and exercise both the options above, GCC was required to comply with certain obligations under the agreements. As those obligations were not complied with in accordance with the terms of the agreements, both the options were terminated in January 2016.

On June 9, 2015, Abitibi Royalties launched the “Abitibi Royalty Search”, by which it would reimburse a company for the renewal fees on existing claims or staking fees on new claims and will receive in exchange a net smelter return royalty. As of December 31, 2015, Abitibi Royalties had eight NSR royalty acquisitions for a total investment of \$79,774. 13. SALE OF MALARTIC CHL PROSPECT BY ABITIBI ROYALTIES

On March 19, 2015, Abitibi Royalties entered into a sell agreement with Canadian Malartic GP, a general partnership, Yamana and Agnico to sell its 30% free carried interest in the Malartic CHL Prospect (the "Project") in consideration for 3,549,695 shares of Yamana and 459,197 shares of Agnico and a 3% net smelter return royalty on the Project. 16. CONTINGENCIES AND COMMITMENTS

The Corporation is partially financed through the issuance of flow-through shares and, according to tax rules regarding this type of financing, the Corporation is engaged in realizing mining exploration work.

These tax rules set deadlines for carrying out the exploration work, which must be performed no later than the first of the following dates:

- _ Two years following the flow-through placements;
- _ One year after the Corporation has renounced the tax deductions relating to the exploration work.

However, there is no guarantee that its expenses will qualify as Canadian exploration expenses, even if the Corporation is committed to taking all the necessary measures in this regard. Refusal of certain expenses by the tax authorities would have a negative tax impact for investors.
