**About Golden Valley Mines Ltd.:**

The Company typically tests initial grassroots targets while owning a 100% interest therein and then seeks partners to continue exploration funding. This allows the Company to carry on its generative programs and systematic exploration efforts at other majority-owned grassroots projects. The Company (together with its various subsidiaries) holds majority property interests in projects in Canada (Saskatchewan, Ontario and Québec) and in the Republic of Sierra Leone in West Africa.

The Company has formed four subsidiaries to hold advanced projects and/or projects that are peripheral to its core business plan (grassroots exploration) and/or outside of its main area of operations (Abitibi Greenstone Belt) with the intention of making an application for the listing of their shares on the TSX Venture Exchange (the “**Exchange**”), namely (1) Abitibi Royalties Inc. (which holds the Malartic CHL project, an option/joint venture project with Osisko Mining Corp., and the Luc Bourdon and Luc Bourdon West Project, an option/joint venture project with Noront Resources Ltd. and White Pine Resources Inc.), (2) Nunavik Nickel Mines Ltd. (which holds the Corporation's advanced nickel-copper-PGE projects situated in the Nunavik Region of Québec), (3) Uranium Valley Mines Ltd. (which holds the Corporation's 40% interest in the Beartooth Island Project and which is anticipated to hold other advanced uranium joint venture projects), and (4) Calone Mining Ltd. (to pursue grassroots exploration in the Republic of Sierra Leone, West Africa through the acquisition of the common shares of Calone Mining Company (S.L.) Ltd.). At this time, the Company has yet to make a formal listing application to the Exchange and the completion of the foregoing proposed transaction is subject to, amongst other things, the approval of the Exchange, the Company's shareholders, the Court of British Columbia, and all other applicable regulatory bodies.
